

HEBEL SYSTEMS ARE **SIMPLE** AND **EASY TO APPROVE**

www.hebel.com.au

CSR Hebel is Australia's only manufacturer of reinforced autoclaved aerated concrete (AAC), a non-combustible, strong, yet light weight building material suitable for use in commercial, residential and civil applications.

Hebel panels contain steel reinforcement for added strength with an anti-corrosion layer on the steel for maximum durability. Delivering a wide range of benefits including thermal and acoustic performance, fire protection and faster construction times Hebel products are fast becoming a popular choice for builders and developers.

SIMPLE & EASY TO APPROVE

Referencing Hebel is simple

All Hebel reinforced AAC panel products are rigorously tested to ensure they comply with the Australian Standard for Reinforced Autoclaved Aerated Concrete, AS 5146 parts 1 to 3.

Deemed to Satisfy

AS 5146 is referenced in the Building Code of Australia giving the following AAC construction systems Deemed-to-Satisfy (DTS) status:

- Houses and Low Rise 50mm and 75mm AAC External Walls
- Low Rise 50mm and 75mm AAC Intertency / Party Walls
- 75mm AAC Floors
- 75mm AAC High Rise Façade Walls
- 150mm-250mm AAC Floors

Compliance is easy

Compliance is easy as most Hebel systems are Deemed to Satisfy. All systems are supported by technical documentation, test reports and/or assessments.

Easy to inspect

Simple systems with visible components and construction methods means inspections are easy.

CSR HEBEL SUPPORT

CSR Hebel is here to help support you with your project, whether it's our National Call Centre, DesignLink Technical Service team or Business Development Managers.

Step 1

Initial enquiries should be directed to the CSR National Call Centre (NCC) 1300 433 235 or visit www.hebel.com.au

Step 2

If necessary the NCC will escalate your enquiry to DesignLink Technical Services – our team of highly experienced engineers.

Step 3

DesignLink Technical Services will review your enquiry via email or phone and advise on a solution.

Step 4

Site or consultant meetings may be organised if necessary.
